

Connect to ULG-Staff wi-fi: macOS

Go to **System Preferences, Network** and select **Advanced**.

- Click the Wi-Fi icon and select **ULG-Staff**
- On the popup, leave the Mode as **Automatic**
- Enter your ULG computer **Username**, and enter your ULG Computer **password**
- Click **Join**
- The first time you connect to the **ULG-Staff** network, you'll need to verify the server. To authenticate, click **Show Certificate**
- Select **Trust**, change the setting to **Always trust**, then select **Continue**

Only ever trust a certificate signed by QuoVadis Certificate Authority

- A tick symbol appears next to the **ULG-Staff** network to confirm you're connected to the **ULG-Staff** wireless service
